EDUCATION

Savitribai Phule Pune University

B.E in Computer Engineering

Pune , India

B.E Grade : A CGPA: 8.61

MOLADINA JUNIOR COLLEGE

Maharashtra State Board

Pune, India

COURSEWORK

Blockchain

Data Science

Machine Learning

OOPS

Data Structure

SKILLS

PROGRAMMING

Aiken

Haskell

Python

TypeScript

Docker

OS - Linux, Windows

Community Contribution

- Creator of "**Cardano Chronicles**" a LinkedIn newsletter sharing key updates and insights on the Cardano ecosystem.

- Technical writer at **Cardano Spot**, engaging blockchain enthusiasts with in-depth analyses and discussions on emerging trends.

CERTIFICATIONS

- **Aiken Course - EMURGO**
- PGP Course in Python
- PGP Course in Data Science and Machine Learning
- January 2022 Virtual Experience Program participant
- PGP Course in Data Science
- August 2021 Machine learning

PROJECTS

Karbon Ledger

- Karbon Ledger is a **Decentralized Blockchain** platform for transparent and secure carbon credit management.
- Facilitates efficient tracking of sustainability efforts to promote environmental accountability.

Talendro

- Talendro is a decentralized freelance platform on **Cardano**, utilizing **Smart Contract** for secure payments and reputation staking.
- Offers decentralized dispute resolution to ensure fairness and transparency for freelancers and clients.

NFT Market Place

- Architected a comprehensive module for NFT minting, transmission, and acquisition.
- Integrated MeshJS for efficient blockchain interactions and transaction optimization.

AWARDS

- Won **NATIONAL** medal in karate
- Best player of the year.
- Secured 3 medals on Kaggle
- Achieved Interstate Championship in Karate

EXPERIENCE

L&D INFOTEC - Data Scientist Intern

June 2021 – Dec 2021 || Pune

- Collected, analyzed, and interpreted raw data from multiple sources.
- Conducted data processing and analysis using NumPy and Pandas, uncovering key relationships.

Konma – Blockchain Developer

Feb 2023 – Feb 2024

- Developed smart contracts using Haskell, improving security and functionality of blockchain applications.
- Gained hands-on experience with Marlowe, creating financial contracts on Cardano blockchain.

Mynth – Developer

Jan 2024 – July 2024

- Developed on-chain services on the Cardano blockchain, collaborating closely with Infrastructure and Smart Contract Development teams.
- Created and managed containers, overseeing code management, and utilizing diverse infrastructure tools to streamline operations.
